PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	This research is simple, but still relevant to be carried out today. Knowledge about infertility still needs to be explored, so that it will get an idea of knowledge in different times. However, the author needs to explain about gap research in the introduction.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, I think the title of the article is suitable.	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	I think, the abstract of the article is comprehensive.	
Are subsections and structure of the manuscript appropriate?	Yes, the subsections and structure of the manuscript are appropriate.	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	The research method in this study is appropriate, namely descriptive, but the author needs to explain how the sample size was obtained. The author also needs to explain what data will be sought in this study. The author has been good at compiling the discussion, but the author needs to pay attention to the paraphrases from previous references. The author needs to explain whether there are limitations to the research.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	No, the references aren't sufficient and recent. I suggest the link of reference about knowledge and infertility. https://pubmed.ncbi.nlm.nih.gov/?term=Knowledge+and+attitudes+of+infertile&filter=years.2020-2024	
Minor REVISION comments
