

## SDI FINAL EVALUATION FORM 1.1

### PART 1:

Journal Name:	<a href="#">Asian Journal of Pediatric Research</a>
Manuscript Number:	Ms_AJPR_119894
Title of the Manuscript:	<b>A health technology assessment perspective on communicating local knowledge of Hippolite O. Amadi et al.'s neonatal interventions in global health research</b>
Type of Article :	

### PART 2:

<b>FINAL EVALUATOR'S comments on revised paper (if any)</b>	<b>Authors' response to final evaluator's comments</b>
<p><b>I wouldn't recommend publication of the manuscript as it is, for the following reasons:</b></p> <ol style="list-style-type: none"><li>1. The significance of the study to the scientific community is not clear.</li><li>2. The problem statement and objective of the study are not well aligned.</li><li>3. The desk review conducted does not contribute any new insights to the scientific literature, as it only summarizes previous studies by a single researcher.</li><li>4. The exploration of one author is not justifiable</li></ol> <p><b>Instead, as you have gone through review of health technologies developed by researchers in LMIC, I would suggest conducting a scoping review on the health technologies in LMIC.</b></p>
