Yes, it is important. 2. Yes. 3. Yes. 4. Not yet. The title of point 1 of discussion results is not appropriate with the questions research no.1 5. Yes. I think the manuscript is quite scientifically correct. 6. Not yet. There are a lot of research references on learning environment and students' motivation in recently years. The author should be cited more research references. i.e The Influence Of Students' Environment To Students' Learning Motivation (2023) doi https://doi.org/10.56778/jdlde.v1i8.58, Analysis of Student Perceptions of Teacher Quality and Learning Environment as Predictors of Learning Motivation in High Schools https://doi.org/10.54371/jiip.v7i6 , etc. <p>The author can used AI Tools like Scispace to help find out research references.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<ol style="list-style-type: none"> 1. Yes, it's quite suitable for scholarly communications. 	
<p>Optional/General comments</p>	<ul style="list-style-type: none"> - There is still some typo and less punctuation for example : the level of the supportive learning environment wrote twice in results and discussions, three hundred seventy-eight 378 senior high school students (without brackets). - In results and discussion answering research questions no 4, it doesn't need stated the previous research. The previous research should discuss in literature review.
