

Review Form 1.7

Journal Name:	European Journal of Nutrition & Food Safety
Manuscript Number:	Ms_EJNFS_118795
Title of the Manuscript:	Effect of Storage on Probiotic Viability, Physicochemical and Sensory Properties of Probiotic-Enriched Orange Juice
Type of the Article	Research

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The study on the suitability of orange juice as a non-dairy probiotic carrier contributes significantly to the scientific community by investigating the viability of probiotic strains in orange juice. The study's results have implications for the development of probiotic fruit juices, which could provide a healthier and more natural alternative to traditional dairy-based probiotic products. The study's findings can inform the design of future studies focused on improving the viability of probiotics in fruit juices and enhancing their overall health benefits</p> <p>Preserving Probiotic Potency: Evaluating the Impact of Storage on Orange Juice's Probiotic Viability, Physicochemical, and Sensory Attributes</p> <p>The abstract provides a comprehensive overview of the study on the effect of enriching orange juice with probiotic Lactobacillus plantarum and Lactobacillus bulgaricus, both as single and mixed cultures</p> <p>Yes.</p> <p>Recommendations and limitations of the study should also be mentioned in the write-up. Add more within the 5 years span upon completion of the write-up.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>
