

Review Form 1.7

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_119188
Title of the Manuscript:	MITIGATION OF ABIOTIC STRESSES IN PLANTS THROUGH NUTRIENT MANAGEMENT
Type of the Article	Review Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> 1. This article provides important information regarding the mitigation of abiotic stresses in plants through nutrient management; 2. The title is adequate to the content of the article; 3. The abstract of the article is well written, adequately explains the research setting and issues; 4. The Introduction gives a suitable description of the addressed problem and it shows the significance of the research problem. The methodology used is well described and appropriate to the purpose of the research. The results are interesting and important to researchers in relevant fields of agriculture and food industry; 5. The work is understandable, correct and scientifically adequate. The purpose or goal of the work is within the journal's scope; 6. Some corrections need to be made. <p>However, some minor corrections should be made in order to publish the article. Please, take into account the following recommendations to improve this manuscript:</p> <ul style="list-style-type: none"> - The general presentation of the manuscript should be reviewed, the extra spaces between words or the lack of spaces between titles, subtitles and text according to the requirements of the journal; - I recommend a revision of the manuscript according to the requirements of the journal (English, technical editing, bibliography, etc.); - Recommend the formulation of clear, precise nutrient management perspectives (benefits) to ensure food security; - Recommend correction of all editing errors as required by the journal. <p>Based on the above mentioned, I recommend this paper for publication after performing the suggested corrections.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	I recommend a carefully check of the full manuscript to correct any grammatical or syntax error.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
