<p>Optional/General comments</p>	<p>I thank the Editor for the invitation made and the authors for the interesting research carried out. The Abstract should be reformulated so that after the interest of the study comes the objective of the work (which is in the last sentence). The authors should emphasize that it is a bibliographical review, where the results derive from the main research carried out on each of the stress factors. In the Introduction section, they could briefly explain why they specify the analysis in points 2 to 9, so that the reader knows the details of the work in advance.</p>
