PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p> | <ol style="list-style-type: none"> The present manuscript is important to society as explains the significance of the use of both organic and inorganic fertilizers in enhancing productivity. Society will now be aware of using such fertilizers to explore more crops. The title is suitable The abstract has the required information but needs an editorial edition in some sentences with grammatical errors. (see within the text) The subsections and structure of the manuscript are appropriate but need an editorial edition (see within the text) The Manuscript is scientifically correct The references are relatively recent which is commendable and all the listed references have been cited in the text and vice versa. But, use one style to present your references following the journal's format or style (More than one style has been used). | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | The language used is communicable. | |
| <p>Optional/General comments</p> | <ol style="list-style-type: none"> Work through the grammatical and syntax errors in the document Formulate Nomenclature to define the short-term words used in your manuscript. (eg, RDF, FYM, DAP, DAS e.t.c). The reason for doing this is to make society understand the language used easily. | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
