<p>Optional/General comments</p>	<ul style="list-style-type: none"> • General observation made of errors in typing space between words. • ABSTRACT should summarize just work and findings in few paragraphs, without highlighting subtitles like: Aims, Study design, Place and duratio9n of study, Methodology, Results and Conclusion. • MATERIALS AND METHODS: 2.2.3 Lipoxygenase – align the equation on Enzymatic Activity properly. • DISCUSSION: 1. In page 14, Filippi et al. (2011) should all be in bracket, not just the year i.e. (Filippi et al., 2011). 2. In page 16, the first paragraph should start as: Ramanathan and co-workers (2002) AND NOT Ramanathan et al (2002). 3. The same correction applies to Krause et al (2003) in the second paragraph of the same page. • REFERENCES: The APA American style of reporting references is frequently used in most journals; Authors, (Year), Research title, Journal, Volume, Serial number, Page(s) etc are serialized. I strongly recommend adopting same here.
