PART1:Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write a few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Is the manuscript important for scientific community? Yes, it has interesting results.</p> <p>Is the title of the article suitable? Yes, it is.</p> <p>Is the abstract of the article comprehensive? Yes, it has the main results and conclusion of the experiment.</p> <p>Are subsections and structure of the manuscript appropriate? Yes, they are.</p> <p>Do you think the manuscript is scientifically correct? Yes, I do.</p> <p>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. No, they are not. A great number of references were cited, but only two of them are recent, i.e. published less than five years ago.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes, it is.</p>	
<p>Optional/General comments</p>	<p>Considering that the manuscript is well-written, with an appropriate methodology and a good discussion of the results, I am in favor of publication. However, I suggest citing a greater number of recent references.</p>
