Otherwise, I find it too long.</p> <p>4- Yes its appropriate</p> <p>5-Yes</p> <p>6- There are few references</p> <p>The introduction is overall well developed with important details on ecology, climate, economy, and nutrition. However, in an article, it should not exceed one page while there are two of you. I recommend its reduction and especially a reorganization around the following points: Brief definition of Poacea and diversity Geographical location Significance as defined above Relevance of the study Writing plan for the article</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>
