

## Review Form 1.7

Journal Name:	Asian Journal of Advanced Research and Reports
Manuscript Number:	Ms_AJARR_117303
Title of the Manuscript:	TENOFOVIR INDUCED OSTEOPENIA IN HIV PATIENTS: A CASE STUDY
Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajarr.com/index.php/AJARR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1. The manuscript is important for the scientific community as it highlights a case of Tenofovir-induced Osteopenia after only 8 months on HAART. This condition is common in patients who have been on HAART for long periods not relatively short 8 months.</p> <p>2. NO. Tenofovir induced Osteopenia is not new and is relatively well studied so this title wont strike a bell. However stating the relatively short duration on HAART will make it stand out. OSTEOPENIA IN HIV POSITIVE PATIENT AFTER 8 MONTHS ON TENOFOVIR; A Case study</p> <p>3. YES</p> <p>4. YES</p> <p>5. YES</p> <p>6. References are sufficient but not recent. That is understandable as the occurrence of osteopenia following short term Tenofovir therapy isn't common</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>The quality of the English Language is very good and appropriate</p>	
<p><b>Optional/General</b> comments</p>
