

Review Form 1.7

Journal Name:	International Journal of Pathogen Research
Manuscript Number:	Original Manuscript_IJPR_117844
Title of the Manuscript:	EPIDEMIOLOGY OF GASTROINTESTINAL HELMINTHS INFECTION IN BUFFALO OF NEW ALLUVIAL ZONE OF WEST BENGAL, INDIA
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Partly</p> <p>Epidemiology also include quantitative examination, hence with present content it is not suitable</p> <p>Yes, conclusion should be rewritten</p> <p>Yes, Figures should be converted in to a single table</p> <p>No</p> <p>Yes</p> <p>Statistical analysis is missing (even on prevalence data and risk factor influence go for chi square test and calculate odd ratio)</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Require more improvement</p>	
<p>Optional/General comments</p>	<p>In present form the manuscript is not accepted as observation based on only qualitative examination (prevalence) does not play any role in formulating the worm management. Thus, manuscript needs to be revised with incorporation of data on quantitative examination.</p> <p>All the figures should be converted in a single table.</p> <p>Following incorporation of quantitative observation, and proper recommendation in conclusion, the article can be considered for publication as short communication</p>
