

**Review Form 1.7**

Journal Name:	<b>Asian Journal of Pediatric Research</b>
Manuscript Number:	<b>Ms_AJPR_118221</b>
Title of the Manuscript:	<b>Outcome of Propranolol and in Combination with Intralesional Triamcinolone Therapy in Infantile Haemangioma</b>
Type of the Article	<b>Original Research Article</b>

**Review Form 1.7**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b><u>Compulsory</u></b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></b></p>	<p>Yes it is. It can be useful in treating Infantile Haemangiomas. The consideration for the protocol for Triamcinolone acetonide injection. Should be stated clearly how to deal with it because it's very painful even for adults.</p> <p>Yes, but these another title suggestions</p> <ol style="list-style-type: none"> <li>1. Efficacy of Propranolol Alone and in Combination with Intralesional Triamcinolone in Treating Infantile Hemangioma</li> <li>2. Comparative Outcomes of Propranolol Monotherapy and Combined Therapy with Intralesional Triamcinolone in Infantile Hemangioma</li> <li>3. Evaluating Propranolol and Intralesional Triamcinolone Combination Therapy for Infantile Hemangioma</li> <li>4. Therapeutic Outcomes of Propranolol and Combined Intralesional Triamcinolone in Infantile Hemangioma Management</li> <li>5. Enhanced Treatment Strategies for Infantile Hemangioma: Propranolol vs. Propranolol with Intralesional Triamcinolone</li> </ol> <p>The abstract was too long over than 600 words, needs to be simplified</p> <p>Need to be rewrite follow the guidelines for the author</p> <p>Yes, I do, but need to be stated clearly which statistic test for which variables.</p> <p>Yes</p> <p>Introduction and discussion should be write in several paragraphs, not in one long paragraph. Other consideration I wrote in Word's review.</p>	
<p><b><u>Minor</u></b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>Yes it is</p>	
<p><b><u>Optional/General</u></b> comments</p>	<p>Please double check the grammar</p>
