

Review Form 1.7

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_117265
Title of the Manuscript:	Anchorage Bond Strength of Glass Fibre Polymer Reinforced Concrete with Palm Kernel Shells as Partial Coarse Aggregate
Type of the Article	Journal Article

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Yes, the manuscript is important and discusses an important and in demand topic.</p> <p>2. Yes, the title is suitable.</p> <p>3. No, the abstract need to a little more comprehensive and elaborate with a more explanation.</p> <p>4. No, subsections need to be clear and well classified. (introduction, literature review/previous study, methodology, results, & conclusion). Subsections need to be rearranged.</p> <p>5. Yes.</p> <p>6. The manuscript needs some more references. Some more recent references to be added.</p> <ul style="list-style-type: none"> • The conclusion of the paper needs to be restructured and written in a more scholarly pattern. • Introduction needs to be improved. • Subsection to be added for literature review/ previous studies. • The result tables for Concrete Compressive Strength (table 2 & 3) should be along with the explanation under the same heading 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The quality of English/language of the article needs to be revised/improved.</p>	
<p>Optional/General comments</p>	<ul style="list-style-type: none"> • Introduction needs to be improved. • Subsection to be added for literature review/ previous studies. • The result tables for Concrete Compressive Strength (table 2 & 3) should be along with the explanation under the same heading,
