

Review Form 1.7

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Original Manuscript_JERR_118095
Title of the Manuscript:	Research progress on mechanical properties and frost resistance of rubber recycled concrete
Type of the Article	Review Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes, it is important for scientific community with minor revision</p> <p>Yes, the title is suitable but it needs adjustment, Why do you call it research progress?</p> <p>Yes, the abstract is comprehensive with minimal correction in methodology aspect</p> <p>Yes, it is well structured</p> <p>Yes, it is scientifically correct</p> <p>Yes, the references are okay but more recent references should be added</p> <p>Kindly rewrite your abstract and conclusion for better understanding and in depth study. Disregard general statement. Let it reflect your findings and cogent contribution to knowledge. This will enhance visibility of your work after publication. Proofread and remove all grammatical errors.</p> <p>Contribution to knowledge, discussion of results and technical content of this work need drastic improvement.</p> <p>What did you achieve on “Research progress on mechanical properties and frost resistance of rubber recycled concrete”?</p> <p>Your methodology requires improvement</p> <p>Discussion of results needs drastic improvement.</p> <p>Insert recommendations that will assist further studies on this topic.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>Some literatures cited were not listed. Cite more recent references. Kindly check through, cite and list all your references properly. References are inadequate, cite and use recent references between 2021-2024</p>	
<p>Optional/General comments</p>	<p>Insert tables and figures that can substantiate this review.</p>
