

Review Form 1.7

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_118167
Title of the Manuscript:	Assessment of Required Sample Sizes for Estimating Proportions
Type of the Article	Method Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. This manuscript addresses a critical issue for researchers: the precision of a sample size formula for proportions that is frequently employed. The results are valuable and the analysis is comprehensive, providing researchers with the information they need to ensure that their studies have the necessary force.</p> <p>2. The title effectively encapsulates the focal point of the manuscript.</p> <p>3. The abstract is thorough and provides a clear overview of the study's objectives, methodologies, results, and conclusions.</p> <p>4. The manuscript is organized logically, with distinct subsections that effectively direct the reader through the information.</p> <p>5. The manuscript clearly demonstrates a comprehensive comprehension of the pertinent statistical concepts and employs a sound methodology.</p> <p>6. The references are current and seem to be adequate. Nevertheless, it may be beneficial to incorporate supplementary references that specifically address the practical implications of these discoveries, particularly in the context of particular research fields.</p> <p>Suggestions for Improvement: Provide a concise discussion of any limitations of the study. For example, it is important to note that the analysis is concentrated on a particular formula and may not be applicable to other methods of estimating sample sizes.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>1. Yes</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
