

Review Form 1.7

| | |
|--------------------------|--|
| Journal Name: | Journal of Experimental Agriculture International |
| Manuscript Number: | Original Manuscript_JEAI_118147 |
| Title of the Manuscript: | Regeneration of forest resources in tropical zones (case of Khaya Senegalensis (Desr.) A. Juss.) |
| Type of the Article | Research article |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljeai.com/index.php/JEAI/editorial-policy>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p> | <p>1. Yes, the research supports initiatives to protect biodiversity, improve forest management techniques, and foster socioeconomic growth in rural areas.</p> <p>2. The title is suitable but the author can think title as suggested "Enhancing Timber and Medicinal Plant Resources: Propagation Techniques for Khaya senegalensis in Tropical Regions"</p> <p>3. The abstract of the article is fairly comprehensive but could benefit from some additional details and clarity.</p> <p>4. No, the structure of the manuscript is not appropriate. Follow proper format such as IEEE format or any other format. The article should have proper introduction mentioning the significance of the article along with background information about the regeneration of forest resources in tropical zones. Also mention in the introduction about the subsections that are going to be discussed. Provide proper objectives with objectives as heading in the manuscript so that it can be clearer and more comprehensive to the title.</p> <p>5. Yes, it is correct.</p> <p>6. References are sufficient but cite some recent publication related to your work.</p> <p>7. Provide literature review of the article separately as heading.</p> <p>8. Comparative analysis may enhance the quality of the article.</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | <p>1. Need grammatical corrections and sentence reconstruction.</p> | |
| <p>Optional/General comments</p> | | |
