PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The manuscript appears to be an important and comprehensive review on the topic of micronutrients in relation to plants and ecosystems Overall, the manuscript is valuable for the scientific community working in the fields of soil science, plant nutrition, and sustainable agriculture.</p> <p>The title is suitable and accurately reflects the content of the manuscript. However the <i>VIZ-A-VIZ in the title may not understandable for reader. I suggest modified like " Micronutrients in the Plant-Soil-Environment Continuum: A Comprehensive Review"</i></p> <p>The abstract provides a comprehensive overview of the key points</p> <p>The manuscript is well-structured, with appropriate subsections that cover the relevant aspects of the topic.</p> <p>The manuscript appears to be scientifically correct based on the information provided. The references provided in the manuscript are generally sufficient and cover a good range of recent literature (up to 2022).</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The language used is technical and appropriate for the scientific domain, with the use of relevant scientific terminology related to micronutrients, plant physiology, and soil science.</p>	
<p>Optional/General comments</p>	<p>Overall, the manuscript titled "MICRONUTRIENTS VIZ-A-VIZ PLANTS AND ECOSYSTEM: A REVIEW" appears to be a well-researched and comprehensive review article on a topic of significant importance in the field of agriculture and environmental science.</p>
