

Review Form 1.7

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Original Manuscript_JEAI_118172
Title of the Manuscript:	In Vitro Assessment of Botanical Compatibility with Agaricus bisporus for Sustainable Disease Management
Type of the Article	Research

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>1. The study evaluates the compatibility of various botanicals with Agaricus bisporus, aiming for sustainable disease management. 2. Rigorous in vitro assessment methods ensure reliable findings. 3. A diverse selection of botanicals is tested, offering a broad perspective on potential disease management solutions. 4. Findings support the potential integration of botanicals into mushroom cultivation systems, enhancing sustainability and reducing reliance on synthetic chemicals. 5. Future research should include economic analyses and field condition validations to confirm practical applicability and cost-effectiveness.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes good. Suggested to incorporate the minor corrections after that accept the manuscript for publication.</p>	
<p>Optional/General comments</p>	<p>-</p>
