## Review Form 1.7

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</li> <li>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</li> <li>3. <b>Is the abstract of the article comprehensive?</b></li> <li>4. <b>Are subsections and structure of the manuscript appropriate?</b></li> <li>5. <b>Do you think the manuscript is scientifically correct?</b></li> <li>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></li> </ol> <p><b><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></b></p>	<ol style="list-style-type: none"> <li>1. The manuscript «Formulation and Evaluation of Calendula and Lavender Oil Based Topical Antifungal Gel» may be rather important for scientific community. Calendula oil works wonders as a moisturizer for all skin types. The oil relieves the damaged region and does wonders for dry or split skin. Calendula essential oil helps to cure hemorrhoids, eczema, and dry skin. Lavender may have antifungal effects, as shown by numerous research. Studies suggest that the essential oil of lavender may help inhibit the growth of certain fungi, such as candida albicans.</li> <li>2. The title of the article is suitable. I shall not propose any other one.</li> <li>3. The abstract of the article is comprehensive.</li> <li>4. The subsections and structure of the manuscript are appropriate. I have some questions to the authors. What are Your next plans regarding the start of using the proposed gel in clinical practice.</li> <li>5. To my mind the manuscript is scientifically correct. This innovative herbal topical antifungal gel, which contains essential oils of calendula officinalis and lavender angustifolia, is biocompatible and provides an alternative form of treatment for fungal infections. The gel is intended to reduce the adverse effects of standard antifungal drugs that are commercially accessible, including drug resistance and toxicity.</li> <li>6. The references are sufficient (78 references) and recent.</li> </ol>	
<p><b>Minor</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></li> </ol>	<p>The language/English quality of the article is suitable for scholarly communications.</p>	
<p><b>Optional/General</b> comments</p>	<p>The manuscript "Formulation and Evaluation of Calendula and Lavender Oil Based Topical Antifungal Gel" may be published in the «Journal of Pharmaceutical Research International» after taking into the account the recommendations of the reviewer. I wish the uthors success in their future research.</p>
