

## Review Form 1.7

Journal Name:	<b>Asian Journal of Education and Social Studies</b>
Manuscript Number:	<b>Ms_AJESS_117211</b>
Title of the Manuscript:	<b>Behind The Glitz and Glamour: Experiences of Students in Pageantry Among Senior High School In Davao City</b>
Type of the Article	<b>Original Research Article</b>

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajess.com/index.php/AJESS/editorial-policy> )

**Review Form 1.7**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p><b><u>Compulsory</u></b> REVISION comments</p> <p><b>1. Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p><b>2. Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p><b>3. Is the abstract of the article comprehensive?</b></p> <p><b>4. Are subsections and structure of the manuscript appropriate?</b></p> <p><b>5. Do you think the manuscript is scientifically correct?</b></p> <p><b>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></b></p>	<p>1. Yes. It sheds light on how students manage to balance their academic responsibilities with their participation in pageants, providing insights into time management, stress management, and overall wellbeing.</p> <p>2. No, the title is not in line with the research aim. It could be rephrased as "Behind the Glitz and Galmour: Experiences of Senior High School Students in Pageantry in Davao City"</p> <p>3. No. The aim and conclusion need to be rephrased. Key information on sampling technique, data analysis technique, and key results should be added. Please refer to the manuscript for suggestions.</p> <p>4. No, some sections and subsections need to be clearly highlighted and structured (properly separate and specify the sections and subsections properly). Kindly adjust the structure by using consistent case and font, numbering all sections and subsections (some subsections were not numbered), and organising the result section into subsections with headings aligned with the stated research questions or objectives.</p> <p>5. Yes</p> <p>6. No, the introduction needs further elaboration with references. The discussion section may also require references. The format used for in-text should be changed to journal style (APA style is not the accepted format). All references must be numbered consecutively, and citations of references in the text should be identified using numbers in square brackets. Provide a URL or DOI link for all references if possible.</p>	
<p><b><u>Minor</u></b> REVISION comments</p> <p><b>1. Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>Yes, to some extent. Check the entire manuscript through proofreading for grammatical errors. Some statements must be rephrased for better clarity and communication with the readers. Again, provide the interpretation of various results.</p>	
<p><b><u>Optional/General</u></b> comments</p>	<p>To improve the quality of the manuscript:</p> <p>a. State clearly defined research objectives and/or questions in line with the aim and results of the study. Perhaps: on 'lived experiences of the participants', 'coping mechanisms', and 'insights drawn based on the experiences of the participants.'</p> <p>b. Kindly work on the introduction section, elaborating on the relevant information, as follows: background, including research context, results of preliminary results related to the study, research gaps and gap analysis, research urgency (the necessity or justification of the study), followed by research aim(s), research objectives, and research questions. Provide a reference or source for the statement(s) in the introduction.</p> <p>c. Elaborate more on the methodology section by highlighting and explaining: (i) Population and sample. Indicate which sampling technique was employed to reach the participants. Briefly explain the special names (e.g., Ms Outspoken) or codes (e.g., P1) utilised</p>	

**Review Form 1.7**

	<p>in the study. (ii) Write briefly about the research instrument(s) used, how the reliability and validity of the instrument was checked, and how the instrument used. (iii) Data analysis procedure Rewrite the research objective or question and present the results effectively with it. Presents key results aligned with research questions or objectives.</p> <p>d. If possible, provide a discussion section on the results by giving a general interpretation of the results, comparing the results or findings, or pinpointing the general implications of the findings. Highlight the study's limitations. <i>Refer to the manuscript for suggestions.</i></p>
