

Review Form 1.7

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Original Manuscript_JEAI_117613
Title of the Manuscript:	A comprehensive review of plant breeding techniques for enhancing biotic stress resistance in cereal crops.
Type of the Article	Review Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1- By exploring cutting-edge approaches and technologies, this research provides valuable insights that can benefit researchers, breeders, and policymakers working towards enhancing food security and agricultural sustainability</p> <p>2-It is clearly indicates that the article provides an in-depth review of plant breeding techniques specifically focused on enhancing biotic stress resistance in cereal crops. you may consider the following: "Advancements in Plant Breeding for Biotic Stress Resistance in Cereal Crops: A Comprehensive Overview"</p> <p>3-The abstract of the article "A comprehensive review of plant breeding techniques for enhancing biotic stress resistance in cereal crops"</p> <p>4 – Yes They Are</p> <p>5- Yes I do</p> <p>6- The inclusion of references from recent years (if you find it), such as 2021, 2020, and 2019, indicates that the manuscript is drawing on current research in the field. However, to further enhance the depth and breadth of the literature review, additional references from key studies published in high-impact journals within the last few years could be considered. These additional references could provide further support for the discussed breeding techniques and their applications in improving biotic stress resistance in cereal crops.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes it is	
<p>Optional/General comments</p> <p>References in text</p>	Review the form of references for exemple: Aghnoum R., et al (2010)).delete de second bracket, Make sure that all the references in the list of references share the same forma	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
