**Review Form 1.7**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>The study addresses a critical area in sustainable agriculture by focusing on the cultivation of landraces. Landraces are crucial for maintaining genetic diversity, which is essential for food security and resilience against climate change. Understanding adoption levels of recommended practices for these crops is directly relevant to global efforts in promoting sustainable agricultural practices.</p> <p>The title of the article, "<b>Extent of Adoption Regarding Recommended Cultivation Practices of Landraces by the Beneficiaries of Global Environment Facilities</b>", is largely suitable</p> <p>The abstract provided for the article "Extent of Adoption Regarding Recommended Cultivation Practices of Landraces by the Beneficiaries of Global Environment Facilities" is quite comprehensive. It includes key elements such as the study's objective, methodology, results, and implications. However, there are areas where it could be refined for clarity and completeness.</p> <p>The manuscript is well-structured and includes relevant subsections that provide a clear and logical flow of information.</p> <p>Based on the provided sections of the manuscript, the study appears to be scientifically correct. The methodology is clearly described and appropriate for the study's objectives. The results are systematically presented and discussed.</p> <p><b>Relevance:</b> The references are relevant to the topic of agricultural practice adoption.  <b>Recency:</b> Most of the references are somewhat dated, with the most recent being from 2018 and others going back to 2000.  <b>Coverage:</b> The references cover different crops and regions, providing a diverse perspective on agricultural practice adoption.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>The language and English quality of the article are generally suitable for scholarly communication but could benefit from some improvements to enhance clarity, readability, and professionalism.</p>	
<p><b>Optional/General</b> comments</p>
