

Editor's Comment:

My editorial decision is: (1) to check and correct the in-text citation and references that should be in order. What I found in the manuscript looked like haphazard. It started at 12! Check and correct accordingly.
(2) To accept the manuscript to be published in AJRID after correcting reference and in-text citation.

Editor's Details:

Dr. Win Myint Oo
Associate Professor, Sibul Clinical Campus, SEGi University, Malaysia.
