PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes, the manuscript is important for the scientific community. Considering the case is quite rare in immunocompetent patients, this report will add value to the knowledge of extrapulmonary tuberculosis.</p> <p>The title of the article is suitable</p> <p>Abstract is already comprehensive</p> <p>Structure of the article is appropriate</p> <p>Yes, it is correct scientifically. The basis of the theory underlying the case is strong.</p> <p>The references is out of date. Upon researching in google/google scholar with keyword "splenic tuberculosis", I found one recent article discussing the same topic such as: https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7920217/ I believe the author can add more recent articles as references. Please change or update the references in the article.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The language can be improved. Several sentences can be shortened. Also please check the punctuation in the article.</p>	
<p>Optional/General comments</p>
