Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p><u>Compulsory</u> REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The manuscript is of great importance in the scientific world. The results obtained will contribute to improving knowledge of this crop and to setting up a production programme under various environmental conditions.</p> <p>The title of the article is appropriate</p> <p>Summary of article is complet</p> <p>The manuscript is appropriately structured. It contains a title, an abstract, an introduction, material and methods, results and discussions and finally a conclusion. However, I suggest inserting the following subsections in the material and methods section : - Experimental site: (give a brief presentation of its temperature, climate, vegetation, choice of site); -Sampling: (give a brief description of the soybean variety used (its morphological characteristics, germination capacity, genetic characteristics), the criteria for choosing this soybean variety).</p> <p>Yes, it is scientifically acceptable</p> <p>Except in the case of a threshold set by the journal, 33% of the articles used in this manuscript are recent.</p> <p>See the attachment</p>	
<p><u>Minor</u> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>		
<p><u>Optional/General</u> comments</p>
