

Review Form 1.7

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_119245
Title of the Manuscript:	Phenol profiling of Brinjal (Solanum melongena L.) leaves by LC-MS
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> Many grammatical errors observed all over the article. Abstracts need to be rewritten; no key information is given about the work performed. It's a fruit or Vegetable? check in the introduction section. Introduction section needs more referencing, every statement given need referencing. So far nor no work has been done for Phenolic compounds in egg plant? How this method helps in developing Medicine and drugs? Chemical information and grades information are missing. Sample preparation is not clear. Which part of the plant was used? For this study the whole plant was used or any specific part of the plant are used, mention. What was the temperature obtained to dry the product? How the plant product was stored and at what temperature. What pore size filter paper used for the filtration? What grade of chemicals are used for this study? Chromatographic parameters are missing, what is the run time, what is the column oven temperature, how did you fixed this column, how the mobile phase was selected? Referencing part is not according to the journal requirements. Example 13, 14 and most of the referencing are not consistent. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 		
<p>Optional/General comments</p>
