	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> In the world of MDR, It could be important in understanding the resistance pattern of the bacterial isolates There is non uniformity in the abbreviation used in title and in the other section. I have highlighted the error in review. The abstract needs some refinement(if possible) in terms of the technical words used there. Photographs are completely missing from the manuscript. The graph plotted are also not specified technically. Depends, after seeing the photographs of the results. References should be fine. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<ol style="list-style-type: none"> It's understandable 	
<p>Optional/General comments</p>
