

**Editor's Comment:**

Decision on the manuscript "Effect of Organic Sources on Soil Properties of Soil on the Cultivation of Greengram (Vigna radiate L.) in Sandy Loam Soil of Middle Gujrat Region"

I have studied the original manuscript, comments given by the reviewers and the responses given by the authors to the comments given by the reviewers. I found out that the authors have successfully revised their manuscript according to the comments. The language is appropriate and the authors obeyed almost all journal requirements.

Decision: Having all these qualities into consideration I decide the manuscript be published in Asian journal of soil science and plant nutrition.
