

Review Form 1.7

Journal Name:	Asian Journal of Medicine and Health
Manuscript Number:	Ms_AJMAH_118296
Title of the Manuscript:	Evaluation of plasma fibrinogen level, platelet count & lipid profile as predictors of cardiovascular disease among Bangladeshi healthy male smokers
Type of the Article	Original article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. Yes,. It provides a comprehensive review of various studies investigating the relationship between smoking and biomarkers related to cardiovascular risk, such as plasma fibrinogen levels, platelet count, and lipid profile</p> <p>2.MY SUGGESTION-Assessment of Cardiovascular Risk Factors in Healthy Male Smokers: Focus on Fibrinogen, Platelet Count, and Lipid Profile in Bangladesh</p> <p>3. YES 4.YES 5.YES 6.YES, CAN ADD- Arnett DK, Blumenthal RS, Albert MA, et al. 2019 ACC/AHA Guideline on the Primary Prevention of Cardiovascular Disease: Executive Summary: A Report of the American College of Cardiology/American Heart Association Task Force on Clinical Practice Guidelines. J Am Coll Cardiol. 2019;74(10):1376-1414. doi:10.1016/j.jacc.2019.03.009</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>YES</p>	
<p>Optional/General comments</p>	<p>This study provides valuable insights into the impact of smoking on cardiovascular health among Bangladeshi male smokers. Through a comprehensive evaluation of plasma fibrinogen levels, platelet count, and lipid profile, the study highlights the significant associations between smoking and adverse changes in these parameters, indicative of increased cardiovascular risk. The findings underscore the importance of proactive management strategies for smokers to mitigate their risk of developing cardiovascular disease.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
