

Editor's Comment:

"A REVIEW OF SOME GOODNESS-OF-FIT TEST FOR LOGISTIC REGRESSION MODEL" is an interesting paper that can be very useful for practical users. Therefore, it can be published in AJPAS, after the authors take the following into consideration:

-The title must be:

A REVIEW OF SOME GOODNESS-OF-FIT TESTS FOR LOGISTIC REGRESSION MODEL

instead of

A REVIEW OF SOME GOODNESS-OF-FIT TEST FOR LOGISTIC REGRESSION MODEL

-Mathematical formulas must be formatted appropriately. Situations like the one at the beginning of the 5th page are not acceptable in AJPAS.

The formulas that want to stand out must be numbered and centered.

The text must be rewritten taking this numbering into account, making it more accessible to read.

An English review must be carried out to eliminate any small spelling errors and incorrect verbal agreements.

Without this review, in my opinion, this text cannot be published in AJPAS.
