<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The manuscript should undergo language editing because it contains more grammatical issues.</p>	
<p>Optional/General comments</p>	<ol style="list-style-type: none"> 1. Numbering the manuscript's lines would be better to facilitate the reviewing process. Please consider this comment in the revised version. 2. The introduction section is too short and has few and old references that should be updated. This section contains only four references! The authors should amend and subsidize this section with more updated references. I suggest updating the reference at the beginning of the introduction section with these updated references that are in harmony with this sentence "Soil is an important element essential for the survival of living organisms (Hegazy et al., 2014; Abo-Habaga et al., 2018; Abo-Habaga et al., 2022). Refs. http://dx.doi.org/10.21608/mjae.2014.98430 & http://dx.doi.org/10.21608/jssae.2018.36548 & http://dx.doi.org/10.21608/jssae.2022.138432.1077 3. The last sentence in the introduction section should include the study's aim. 4. The manuscript should undergo language editing because it contains more grammatical issues. 5. What about the limitations of this study? The authors should mention the study's limitations within the manuscript's text. 6. The authors should mention the future perspectives for this study at the end of the conclusion section. 7. The references list section should be reformatted according to the journal's format and guidelines. Please consider this comment carefully.
