

**Review Form 1.7**

Journal Name:	<b>International Journal of Environment and Climate Change</b>
Manuscript Number:	<b>Original Manuscript_IJECC_110927</b>
Title of the Manuscript:	<b>“Studies on land configuration technique and moisture regime on water productivity of maize (Zea mays L.) in summer season”</b>
Type of the Article	

**PART 1: Review Comments**

	<b>Reviewer’s comment</b>	<b>Author’s comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></b></p>	<p>1. <b>(Yes, this manuscript is relevant for scientific community as well as end user; because land levelling irrigation practice depends on agro-climatic condition, soil, crop and other management like soil moisture level for irrigation interval etc.)</b></p> <p>2. The title is good, but I suggested as <b>“Effect of land configuration technique and moisture regime on water productivity of maize (Zea mays L.) in summer season</b></p> <p>3. Good, but minor tense rearrangement required and it add briefing/reasoning for fitted recommendation</p> <p>4. Major correction is required on especial result part. The authors need to follow scientific writing procedure on result section; this means that <b>&lt;statistical test) or level of significance of the treatment&gt;</b> following mean comparison, then finding justification (reasoning /finding explanation</p> <p>5. <b>Good</b>, but minor correction is required on parameter explanation, grammar cosmetics or sentence structure and word flow modification is necessary</p> <p>6. <b>yes</b> References good</p> <p><b>Additional Suggestion</b></p> <ul style="list-style-type: none"> <li>As per given comment on your manuscript please see introduction part modify or written rewrite please</li> <li>Improve/briefly describe your recommendation</li> </ul>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>Some language quality improvement required : especially, wording and sentence coherence or flow of words in the sentence as well as tenses</p>	
<p><b>Optional/General</b> comments</p>
