<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The manuscript is important toward climate smart agriculture. However the author need to adopt the review structure. For instance: "summary" rather than "abstract"</p> <p>Yes but may be more appropriate "an overview on the importance of Biochar in Sustainable Agriculture"</p> <p>Not really as there is no tangible conclusion of a statement that it's a review</p> <p>The sections need to be streamlined to focus the article on sustainable agriculture only; the author need to be systematic from preparation processes and its limitation and where appropriate data from cited literature to be included. Grammar rules need to be adhered to</p> <p>Somehow if published data is include by it sound more of a common talk at its current status</p> <p>If actual factual data will be included the references will grow</p> <p>The author must avoid lifting text from other sources and grammar need to be improved. Avoid repetition</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>The author must use reported speech and be concise</p>	
<p>Optional/General comments</p>	<p>Add more information on biochar</p>
