General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

This is an interesting review and summary of the growth mindset by Carol Dweck and how it can impact academic potential of students especially those in underserved populations. There were some grammatical errors. Corrections were made on the document itself. It is not appropriate or accurate to say "Researches." It is research studies or research. There were other such errors throughout.

It is a thorough review. It will add to the body of literature and hopefully help students of all kinds.
