	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes, it does because it addresses management of soil fertility for optimum crop production</p> <p>It is not. Please refer to my comment and suggestion on the manuscript</p> <p>Not adequately comprehensive. Please refer to my comments and corrections on the manuscript Need elaborate revision as i highlighted in the manuscript</p> <p>Yes, it is, though it would have sounded better if the vermicompost as a factor is applied in levels as the other two factors to stabilize the factorial design</p> <p>About 40 % of the references is badly out-dated and require replacements especially those older than 1995</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Moderately suitable</p>	
<p>Optional/General comments</p>
