

Editor's Comment:

The abstract of the manuscript should be rewritten where "+" and "@" symbols need to be avoided. It is recommended to provide the full meaning of DAS and RDF. Moreover, the sentence "A field study entitled "Influence of foliar application of nano urea and urea on productivity and nutrient status of fodder Maize during kharif season" was carried out during kharif 2022 at Zonal Agricultural Research Station, V. C. Farm, Mandya, Karnataka." should be rewritten as "A field-based study on the above title was carried out during Kharif season in 2022 at Zonal Agricultural Research Station, V. C. Farm, Mandya, Karnataka." After these corrections, the manuscript can be published in JABB.
