

Review Form 1.7

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_113957
Title of the Manuscript:	Clinical Evaluation of Injectable Platelet-Rich Fibrin (i-PRF) and Albumin Gel (ALB-GEL) as Autologous Tissue Regenerators in Facial Aesthetics on Hemifaces
Type of the Article	Comparative Study

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>As esthetics is becoming more and more in important now a days, the treatment of gradual ageing is also in demand. The current manuscript highlights an easier and reliable method for tissue regeneration in the nasolabial fold. Thus the manuscript is very much important.</p> <p>Clinical Evaluation of Injectable Platelet-Rich Fibrin (i-PRF) and Albumin Gel (ALB-GEL) for Autologous Tissue Regeneration in Facial Aesthetics on Hemifaces.</p> <p>Yes. But the author could ease on the language for better easier understanding.</p> <p>A different section can be added for statistical analysis rather than including in the material and method section.</p> <p>Yes.</p> <p>The references are sufficient. The author could evaluate more on recent studies on similar parameters. More references need to be added on articles about dermal tissue regeneration with i-prf and albumin gel.</p> <p>The author can add on critical analysis of the study. Eg – The sample size could have been increased for further confirmation of the results.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes.</p>	
<p>Optional/General comments</p>
