<p>Optional/General comments</p>	<p>Objective: let's bring more cohesion to the general objective of the work suggestion:</p> <ol style="list-style-type: none"> 1. Identify forms of treatment for OMRM by treating current infection, controlling pain associated with the injury and promoting healing in the affected area. 2. Note that the work has two objectives, one at the end of the introduction and the other in the methodology, so it is necessary to bring the main focus of the work to the removal of one objective. 3. In the methodology, insert how many articles found, how many used - universe and sample. And also include which languages were used in the research and which years were used in the articles? 4. in the references, insert the DOI or the article access link and the access date.
