

Editor's Comment:

The article entitled "Evaluation of the Antioxidant Capacity and Studies of the Anticonvulsant Properties of Hymenocardiaacida" submitted by the author is an interesting article that needs few revisions after which it may be considered for acceptance.

Abstract:OK

Introduction: The rationale for selected topic such as ""Evaluation of the Antioxidant Capacity and Studies of the Anticonvulsant Properties of Hymenocardiaacida" s not clear. Emphasis must be given on the reason for the evaluation of the Anticonvulsant Properties of Hymenocardiaacida. Further, introduction section must be written in a storytelling format.

Materials and Methods: ok

Result: Ok

Overall: The work is ok. Still many "typographic errors" such as spaces and others such as "gaba" which should have been "GABA" are highlighted in red bold letter even in the revised manuscript.

Accepted After Minor Revision.
