<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>I thank the Editor for the invitation made and the authors for the research carried out. The abstract is very clear and the resulted presented show the relevance of the study. The Introduction sections show the problems with the changing temperatures all over the world which justify the relevance of the research, documented in bibliography. . Tabel 1 , 2 and 3 are missing in the text. The study done in India between 2019 and 2020. The paper is well structured but need lots of attention to understand all the figures, that perhaps presented in a different way could make it easy to follow. I congratulate the authors for the effort and for the relevant work done.</p>
