

Review Form 1.7

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_111564
Title of the Manuscript:	EVALUATION OF THE HEPATOPROTECTIVE ACTIVITY AND ACUTE TOXICITY OF GUIERA SENEGALENSIS LEAF EXTRACT ON WISTAR RATS STRAIN
Type of the Article	

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Many major changes required, lack of scientific writing.</p> <p>NO, Title should be attractive, and sound.</p> <p>Abstract has to be reframed, scientifically proven.</p> <p>NO, many corrections are required, justification required.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	NO	
<p>Optional/General comments</p>	<p>1. Paper is scientifically less contetives, no prelinmary or adadvanced phytochemicals screening or characterisation study.</p> <p>2. Justify selection of Wistar rat, number of animals, silymarin dose, leaf extract,500 mg/kg test dose.</p> <p>3. Why Wistar rats (<i>Rattus norvegicus</i>) with masses between 80-100g were used ?</p> <p>4. There were neither information or indication used in figures about a, b, c ?</p> <p>5. What is the meaning of ALAT parameter parameters in first paragraph of result?</p> <p>6. Figures are not well represented. Please justify the use of healthy group and negative control ?</p> <p>7. Figure 6 legend has to corrected or spelling or grammatical issues are there.</p> <p>8. What is the meaning of "This result can be explained by the presence of molecules acting either through a free radical capture mechanism or by providing endogenous phospholipids necessary for the repair of cells and organelles and restoring the cell membranes of hepatocytes [26]" ?</p> <p>9. At the end, regret to suggest for carry out minimum phytochemical screening, and update Discussion accordingly.</p> <p>10. Histopathological study can be explain more precisely.</p> <p>Major revision required, manuscript should be with updated data.</p>
