

Editor's Comment:

I have gone through the original manuscript, reviewers comments on manuscript and revised manuscript. I personally endorse the reviewer's critical comments on the original manuscript for the improvement of the manuscript and maintain the journal quality and standards. The submitted article entitled "Determining the best rate of blended NPKSZnB fertilizer for optimum onion yield and yield components in northwestern Tigray, Ethiopia" would help the onion farmers to increase the onion yield with optimum blended fertilizers in the study region.

Final Decision: Manuscript can be accepted for publication.
