

Review Form 1.7

Journal Name:	European Journal of Nutrition & Food Safety
Manuscript Number:	Ms_EJNFS_114074
Title of the Manuscript:	Food Calorie Consumption and Vulnerability Status of the Rice Farmers in Ekiti State, Nigeria: Perspective for Commercialized Farming
Type of the Article	

Review Form 1.7

<p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The subsections and overall structure of the manuscript seem appropriate. The study is well-organized, with clear headings that guide the reader through the introduction, methodology, results, and discussion sections. This structure is typical for scientific research articles and helps readers understand the flow of the study.</p> <p>The study appears to be scientifically sound. The use of a multi-stage sampling technique, descriptive statistics, and regression analysis are standard methods in social science research, providing a strong foundation for the study's findings.</p> <p>Update outdated references</p> <p>Like Adesanoye, A.O. and Okunmadewa, F.Y. (2007). Households' vulnerability to poverty in Ibadan metropolis, Oyo state, Nigeria. Pakistan Journal of social sciences 4(1): 120-128</p> <p>Crush, J. S. & Frayne, G. B. (2011). Urban food insecurity and the new international food security agenda. Dev. South. Afr. 28, 527–544.</p> <p>Yamane, T., (1967). Statistics: An Introductory Analysis, 2nd Edition, New York: Haper and Row.</p> <p>Mesfin, W. (2014). Analysis of Households Vulnerability and Food Insecurity in Amhara Regional State of Ethiopia: Using Value at Risk Analysis. Ethiopia Journal of Economics 23(2). 37-78.</p> <p>Discussion of Limitations: Include a discussion of the limitations of the study, such as potential biases in the sampling technique or limitations of the regression model, to provide a balanced interpretation of the findings.</p> <p>Policy Recommendations: Expand on the policy implications of the study's findings, providing specific recommendations for policymakers and practitioners to address food insecurity among rice farmers in Ekiti State.</p> <p>Future Research Directions: Discuss potential avenues for future research, such as exploring the impact of specific interventions or policies on food security among rice farmers, to guide further studies in this area.</p> <p>Engage with Existing Literature: Ensure the study engages with and builds upon existing literature on food security, vulnerability, and agricultural practices in Nigeria and similar contexts to demonstrate the study's contribution to the field.</p> <p>Conclusion: Provide a strong conclusion that summarizes the key findings of the study and emphasizes their significance for addressing food insecurity among rice farmers.</p> <p>Language and Style: Maintain a consistent writing style throughout the manuscript, adhering to academic conventions and avoiding jargon or overly technical language that may obscure the study's findings.</p>
