The manuscript is important for scientific community. 2. The title of the article is suitable. 3. The abstract of the article is comprehensive. 4. The manuscript is quite structured. 5. The manuscript is completely scientifically correct. 6. The references are sufficient and recent. | |
| <p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? | <ol style="list-style-type: none"> 1. The English quality of the manuscript is sufficient. | |
| <p>Optional/General comments</p> | <p>Reviewer's Comments:</p> <ol style="list-style-type: none"> 1. There is too much theoretical material. 2. In the Methodology section, the authors note that Section A of the questionnaires contained items for demographic characteristics of participants, but this data is not reflected in the Results. 3. Among the practical recommendations, the authors should expand the idea of methods and measures of counteracting occupational stress and not be limited to making time for periodic relaxation such as lunchtime, evenings, weekends and holidays. | |
