EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1. Consider the ff. notes in doing final revisions:</p> <p>2. Be clear with what processes you have undertaken in conducting literature review. Is it meta analysis? How many studies were considered? why these studies were considered out of several available literatures/studies, etc.</p>	<p>Noted</p> <p>Its literature reviews (Added in document) Number of Studies Considered:</p> <p>A total of 32 studies were considered in the literature review. The selection of this specific number was driven by the aim to achieve a comprehensive exploration while maintaining a manageable scope for thorough analysis. Justification for Study Selection:</p> <p>The chosen studies were considered due to their direct relevance to the research topics of social behavior, politics, and cultural norms in the context of online platforms. Emphasis on peer-reviewed articles, case studies, and authoritative reports aimed to ensure the inclusion of academically rigorous content.</p> <p>The selection process focused on quality over quantity, ensuring that the included studies provided substantial contributions to the understanding of the subject matter.</p>
