Type of the Article	

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<ol style="list-style-type: none"> 1. It has shown a lot of scientific techniques and methods but needs to improve the technicalities and principles in research. 2. Not suitable. May be The Moderating Effect Of Decision Making In Maintaining Relationship Between Business Sustainability And Morality Within The Financial Environmental Sectors. 3. Somehow, the variables must be clearly identified and defined clearly. Morality as in what? Causal or predictive variable? Check the abstract, no phrases but one or two words is ok. 4. Yes and somehow. 5. Somehow because misapplication of methodology to collect data. No total population, hence no sample size. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>Yes, but the person format is in Indonesian English</p>	
<p>Optional/General comments</p>	<p>What is accounting moral to that of morality, which on is your study about?</p> <p>Development of hypothesis must be under the literature review and not as heading in line with the literature review.</p> <p>Almost all the citation is at the end of the sentence, why not also at the beginning?</p> <p>Where is your research objectives and research questions?</p> <p>Must make sure that the variables are in the conceptual framework, such as morality, environmental pressure, quality of decision making, and business sustainability. Your indication variables must also be indicated in the conceptual framework. By the way, do you have theoretical or conceptual model?</p> <p>How did you get your 150 respondents since you don't have total population and no formula is used to get the sample size under quantitative method means your results and discussion are questionable? Cannot be right because of wrong data collection.</p> <p>Where is your arithmetic and bootstrapping diagrams to show the significance of your work especially, the data results presented??</p> <p>Did you delete any component or factors of the variables? Show you path models clearly.</p> <p>Show all the reliabilities results in the diagram such as the Cronbach alpha, rho-A, composite, etc.</p>	

Review Form 1.7

	<p>Follow comments in your manuscript as well. Hence, rework your conclusion.</p> <p>No factor loadings tables??</p> <p>Check in the text of the manuscript. Those in blue colour has grammar problem and then those in red can be deleted or rephrased.</p>
