|---|---|---|
| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p> | <p>The paper presents the result of the contribution of Third Sector Organisations to support the Government during the time of need, it is very useful to the scientific community.</p> <p>EVALUATING THE SYNERGY BETWEEN KARNATAKA GOVERNMENT'S COLLABORATION WITH THIRD SECTOR ORGANIZATIONS (TSOs) FOR RURAL DEVELOPMENT AND SUPPORT DURING COVID-19</p> <p>Yes, but in the methodology, it should clear be stated that it a survey. Methods of data collection and analysis should be clearly stated. It should be stated if it is casual comparative or survey using interview or questionnaire to collect data</p> <p>Yes, but method of data collection and analysis should be clearly stated. However, chi-square or analysis of variance can be use to test the significance of the synergy.</p> <p>Yes.</p> <p>The references are good but they should be properly presented in the latest APA style and possibly more work cited to increase the references. Example: Diebie, R. and Okere, J. S.(2015).Government and NGOs Performance with Respect to Women Empowerment in Nigeria. <i>Africa's Public Service Delivery & Performance Review</i>. 3(1):77.</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | <p>Yes.</p> | |
| <p>Optional/General comments</p> | <p>The article is recommended for publication, but more work should be done on methodology as stated above and additional references are required to give the work a world class standard it deserves.</p> | |
