

## Review Form 1.7

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_113205
Title of the Manuscript:	Effects of ethyl acetate fraction of Mangifera haden seeds on carbon tetrachloride induced hepatotoxicity in albino rats
Type of the Article	

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p><b>Author used the</b> albino rats as experimental animal and checked the efficiency of the ethyl acetate fraction to reduce the hepatotoxicity in the CCl<sub>4</sub> intoxicated rates. Author performed all the experiment in <b>Preventive and curative Model</b> and compered data in both manner <b>biochemical and Histological study</b>.</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	Yes	
<p><b>Optional/General</b> comments</p>	<ol style="list-style-type: none"> <li>Specify why the only male rats are used in the experiment.</li> <li>Explain how the ethyl acetate fractions or extractions are prepared. Not explained in the manuscripts.</li> <li>Specify the identification of phytochemicals and provide the GC-MS chromatogram and peak identification.</li> <li>Give the liver profile test used in the study prior to experiment of all the 60 Rats used in this study.</li> </ol>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Are there ethical issues in this manuscript?</b></p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
