

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_114919
Title of the Manuscript:	GROWTH, YIELD AND FRUIT QUALITY OF CAPSICUM HYBRIDS (<i>Capsicum annuum</i>) AS AFFECTED BY INTEGRATION OF INORGANIC FERTILIZERS AND ORGANIC MANURES (FYM) IN PROTECTED CONDITION
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes</p> <p>Yes Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Statistical Analysis: The use of statistical methods, such as analysis of variance, to assess the significance of treatment effects adds credibility to the study's findings. The comparison of treatment effects against critical values and the calculation of significant differences enhance the rigor of the experimental results</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Expand the discussion on the genetic and environmental factors influencing the performance of different Capsicum varieties, emphasizing the specific traits contributing to superior growth and yield. Analyze the implications of the observed differences in growth parameters, yield components, and fruit quality for practical cultivation and variety selection.</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
